

# PCA IN THE ED

1

## ORDER PLACED

- Use PCA orderset
- Opioid naive patients
  - Search 'Dosing Guideline for Intravenous Patient Controlled Analgesia in Patients with Limited Opioid Exposure' on Intranet
- Non-opioid naive patients
  - Review chart for pain management plan
  - Review previously effective dosing

2

## ORDER VERIFIED

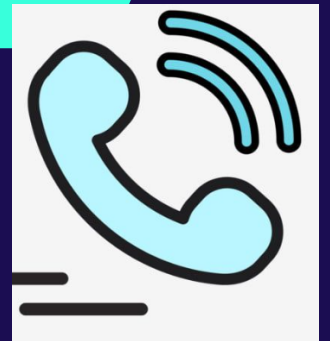

- Pharmacist reviews order parameters and prints label for dispensing

3

## PHARMACY CONTACTS NURSE

- Pharmacy calls and/or sends Epic Chat to ED nurse to verify when and where PCA will be administered
- If nurse doesn't hear from pharmacy, please contact central pharmacy at 974-8761

4

## PHARMACY PREPARES PCA

- Once all verification complete, PCA will be prepared

5

## PHARMACY DELIVERS PCA TO ED

- Pharmacy will coordinate delivery
- Nurse receiving medication must sign for controlled substance delivery
